Narrative

Devine ISD decided on the Self Provisioned fiber product due to its long range cost benefits for both USAC and the school district. Example, USAC has been spending roughly \$33,000 per year for lit fiber services for many years. Based upon this figure the recovery period would be roughly 4.6 years without any further reoccurring costs on this project or to these 3 locations as outlined. This project also raises the connectivity speeds from 1,000 Mbps to 10,000 Mbps. Devine ISD intends to perform any needed maintenance and repairs out of local funds. Project details are outlined in the Devine ISD Cat1 ERATE 2018-job specs.pdf. Devine ISD has opted to upgrade the fiber project from 2 strands to 12 strands in the fiber count. Devine ISD will and or is willing to incur any charges above the 2 strand count. However, in this case the 12 strand fiber cost is less due to availability and product demand. Only 2 strands will be lit per location.

I certify an FCC Form 470 was posted and that any related RFP was made available for at least 28 days before considering all bids received and selecting a service provider. I certify that all bids submitted were carefully considered and the most cost-effective service offering was selected, with price being the primary factor considered, and is the most cost-effective means of meeting educational needs and technology goals.

I certify that the entity responsible for selecting the service provider(s) has reviewed all applicable FCC, state, and local procurement/competitive bidding requirements and that the entity or entities listed on this application have complied with them.

I certify that the services the applicant purchases at discounts provided by 47 U.S.C. § 254 will be used primarily for educational purposes, see 47 C.F.R. § 54.500 and will not be sold, resold or transferred in consideration for money or any other thing of value, except as permitted by the Commission's rules at 47 C.F.R. § 54.513.
